

THE OFFICE OF CIVIC AND COMMUNITY ENGAGEMENT
AND COLLEGE OF ENGINEERING PRESENTS:

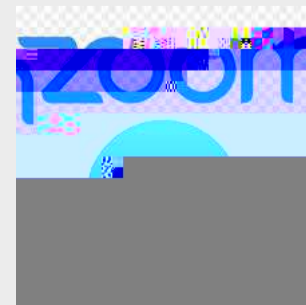

PEACE CORPS TO REER TALK-STORY: CIVIL AND ENVIRONMENTAL ENGINEERING

From 1979-1982, Barry Pollock worked as a Public Health / Water and Sanitation Peace Corps Volunteer in Zaire (DRC) where he worked on small drinking water projects (springs, shallow wells, water containers) and public health projects.

His Peace Corps service launched his passion for engineering and public health, taking him to UC Berkeley where he obtained a MPH and MS in Civil Engineering. Since then, Barry has worked for 24 years at the US Environmental Protection Agency Region 9 Office in the Drinking Water Program as an Engineer and enforcement officer overseeing State of
