

**Journey to the beginning of the solar system:
Dawn's exploration of the main asteroid belt**

Friday, April 23, 15:00-16:00 HST

Zoom link: <https://hawaii.zoom.us/j/93358887540>

SUMMARY

This talk will highlight results from the NASA Dawn mission, which completed its 11-year voyage through the main asteroid belt in 2018. Dawn transformed Vesta and Ceres from fuzzy patches of light as viewed by Earth-based telescopes into complex, geologic
